

Part-Time Physiotherapist (Musculoskeletal)

A physiotherapist is required for fixed-term part-time work in Ferrymead, Christchurch until June 2018.

4-8 hours per week with existing caseload. Flexible hours.

I am seeking a part-time physiotherapist for a fixed-term independent contract to work in my Ferrymead clinic (Christchurch, NZ). The caseload predominantly consists of shoulder conditions in all age groups as well as a mix of other musculoskeletal conditions with an increasing number of direct referrals from local physiotherapists, GPs, Sports Physicians and Orthopaedic Specialists. The physiotherapist will take on an existing caseload.

You will be working in a Specialist Practice and a high standard of personal presentation, professional practice standards and excellent verbal and written communication skills with patients and referrers are required. I am looking for someone with a strong patient-centered focus, a willingness to learn and adapt diagnostic and management practices. Advanced knowledge of shoulder diagnosis and management is not required. There may be scope to extend this contract beyond June 2018.

Role	Independent contractor
Term:	Until June 2018
Start Date:	As soon as available
Hours:	4-8 hours per week (opportunity to increase if desired)
Days:	Clinic available Monday, Wednesday or Thursday, or split hours between any of these days.
Times:	Flexible
Appointment Structure:	Regulation fees (hourly rate). Physiotherapist can determine how long is spent with each patient. Usually 1 hour initial / 30-minute follow-up

The practice has a good relationship with local GPs and Specialists and local businesses, excellent reception and administrative support and ample free parking in a quiet street in an up and coming area of Christchurch.

Send your cover letter and CV with three referees to:
